Additional Notes and Details:

- TalkText+ is intended for personal technology support. Business support is available. Please call for rates.
- While TalkText+ and remote support service is broadly available, in-home and pickup service coverage is limited.
- For most services, 1 credit = 10 minutes of service. Typical service calls last 30 minutes.
- For pickup support, the most common service costs 5 credits.
- In order to keep our service quality high, a limit on the number of TalkText+ customers may apply. Sign up now.
- Not all issues can be solved over text, chat, or email. TalkText+ provides support help, but sometimes the solution may require additional service. For instance, we can't fix a broken phone screen over text message, but we will help you order the parts and send you a tutorial on how to do it for free.
